

Our Services

Full-service automotive care for cars, trucks, SUVs, farm equipment, and trailers.

■ A/C Service

Stay cool on the road. We diagnose and repair air conditioning systems, including refrigerant recharge, leak detection, and compressor replacement to keep you comfortable year-round.

■ Auto Repairs

From minor fixes to major repairs, our experienced technicians handle it all. Engine work, suspension, steering, electrical systems, and exhaust—we've got you covered.

■ Brakes

Complete brake service including pad and rotor replacement, brake fluid flush, caliper service, and ABS diagnostics. Your safety is always our top priority.

■ DOT / Trailers

DOT inspections and full trailer service. We handle trailer tires, brakes, bearings, lights, and safety inspections to keep you road-legal and hauling safely.

■ Scheduled Maintenance

Stay ahead of costly repairs with manufacturer-recommended maintenance. We follow your vehicle's service schedule to maximize reliability and resale value.

■ Wheel Alignment

Precision alignment using state-of-the-art equipment. We adjust camber, caster, and toe to factory specifications for even tire wear, improved fuel efficiency, and smooth handling.

■ Batteries

Battery testing, replacement, and electrical system diagnostics. We carry quality batteries designed to start reliably in Minnesota's toughest winter conditions.

■ Diagnostics

Advanced diagnostic equipment to quickly and accurately identify issues. Check engine lights, performance problems, and electrical faults diagnosed right the first time.

■ Oil Changes

Quick, professional oil changes with conventional, synthetic blend, or full synthetic options. We also inspect and top off fluids, and check filters with every service.

■ Transmissions

Transmission fluid service, diagnostics, and repair for both automatic and manual transmissions. Proper maintenance extends transmission life significantly.
